Oswald Spengler, the famous German philosopher and historian, passed away on Monday, July 26, 1931. However, his work has survived the test of time, and it is still an important work. Spengler’s most famous book, *The Decline of the West*, was published in 1918, which is currently more than 100 years old. Spengler’s writing style is very condensed, but if you read it carefully, you can still get many insightful messages. It is very hard to pinpoint the first time he wrote a book. He was born in 1880 in Leipzig in Germany. He studied at the university in Breslau, and began writing a book titled “*Work in Progress*” in 1915. However, he was not able to complete the book because of the first World War. The manuscript was found after his death and had never been published.

“*The Decline of the West: Art and Catastrophe 1881-1931*” covers the decline of the West from the religious renaissance in the Renaissance era and the birth of Christianity to the “seedy” art of the 20th century. After the book was published, the book gained many followers. In one book review, he was described as a “Salvator Rilke” and the “Dickens of the 20th century.” The book is divided into three parts. The first part is entitled “the genesis of the things seen,” the second part is “the flux of the world in a world redeemed,” and the third part is “the ruin of the West.” The first part covers the ascendancy of Greece, the Hinduism and the Renaissance, while the second part shows how Christianity was viewed as superior to all other religions at that time. The third part tells the story of the “disenchantment of the world” and how the West gets to the point of self-destruction.

“*The Decline of the West*” was regarded as one of the most important pieces of literature in 20th century history. The philosophy of the book was highly
