Fantastic game, everyones been raving about it. Its looking really good. I'm a little bit scared about the online game aspect it will be a real pain in the ass to play at the moment but will be looking at the website and building my own character. 11/4/2011: It's great, feels like its a hybrid of both Dark Souls and Bloodborne. The atmosphere is great, the combat is the best i've ever seen on a PS3 exclusive and i have no problem with the game being split into 4 chunks and the online is soo neat i've played 30 hours and it never lets you get bored. 10/27/2011: Just like Dark Souls and Bloodborne I couldn't stop playing the game until I died. This time I couldn't tolerate the game until I hit level 46. 9/10/2011: At first it was irritating, you just die and then get booted back to the main menu then you get placed in a dungeon with a monster that gives you no choice but to kill it. Its disappointing how that didnt change and still happens. 9/10/2011: Don't jump in until you are level 42 or 43. Get a bow before you go in and take out the lava guys. For the average player it's is okay but for the hardcore (those who care for customisation) it's a pain. 7/13/2011: As a Dark Souls player this game is a dream come true. Just like Dark Souls it's a type of game that requires you to be very fast and very accurate. 9/8/2011: Definite must have for the PS3 I am already looking forward to the next A-ranked game. 9/3/2011: Its an amazingly polished game but its the annoying design choices that keep this from being perfect. 4 times I have come across a barricaded door where the door was locked and I had to go through the loading screen to unlock it. Its the same with the opening quest, I had to do something that was 100% against everything the game stood for, go to certain village to get items. Its the little annoyances that make me avoid the game and I'm sure I will not be the only one. 6/28/2011: Why haven't I seen this game on the PSP? 6/24/2011: When I first started playing this I noticed a load times were a bit annoying bff6bb2d33

However, the training process will not be as fast as a conventional physical training method, so beginners should exercise care. \* Special abilities are melee and ranged fighters' powerful skills that can be learned, improved and upgraded by leveling-up, and are unique to each character. \* In addition to the skills of the fighters, magic elements have their own powerful attack and defense properties. \* Remember that special abilities can be used in a short period of time as you level-up and have higher attack power.
